X-ray CCD camera XPoint1000CP

X-ray CCD camera X-point 1000CP is an analog video output X-ray TV camera prepared for maintenance of the XPoint1000 that we have been selling since 1998. It can be supplied as a new product when damaged camera cannot be repaired due to bad condition or when parts cannot be procured because of an old unit.

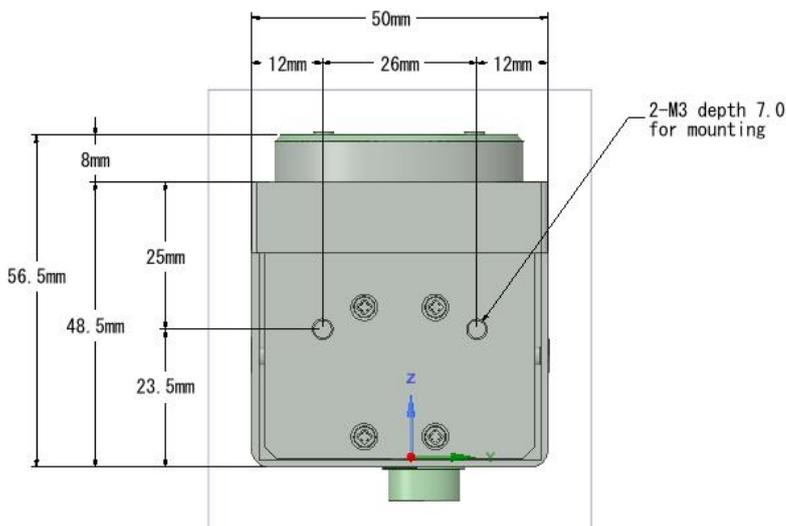

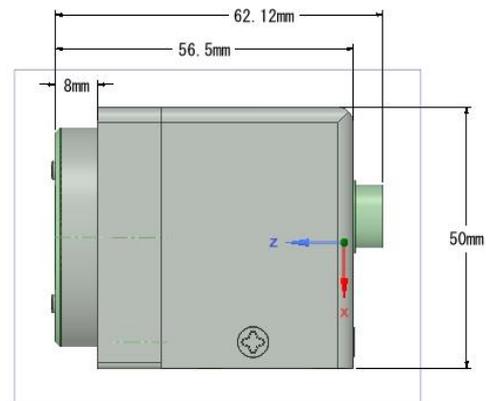

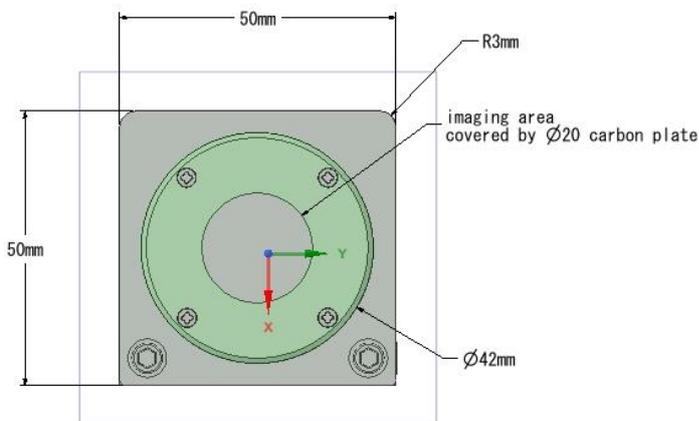

XPoint 1000CP-B outlook

Model	F.O.V	Video output	replacement	CCD type
XP1000CP-B	6.6mm × 8.8mm	EIA or CCIR	XP1000B	ICX418, ICX419
