X-ray CCD camera XPoint1000CP

X-ray CCD camera X-point 1000CP is an analog video output X-ray TV camera prepared for maintenance of the XPoint1000 that we have been selling since 1998. It can be supplied as a new product when damaged camera cannot be repaired due to bad condition or when parts cannot be procured because of an old unit.

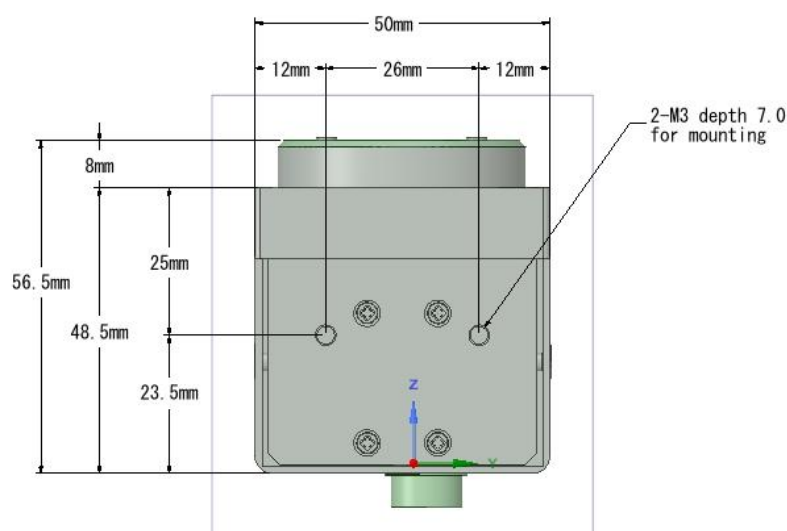

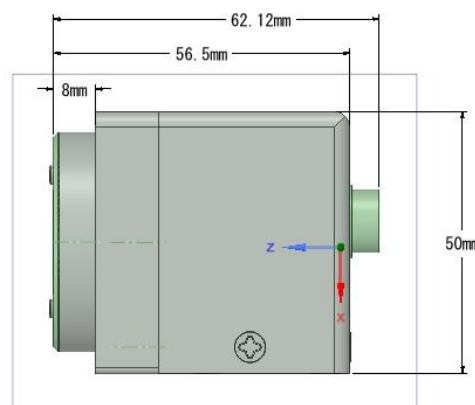

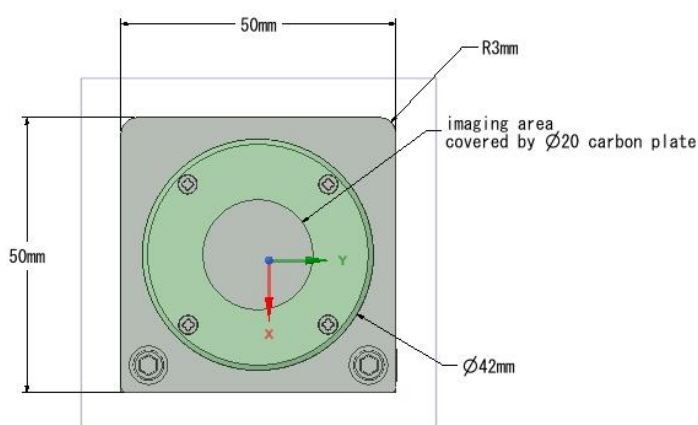

XPoint 1000CP

| Model | F.O.V | Video output | replacement | CCD type |
|----------|---------------|--------------|-------------|----------------|
| XP1000CP | 9.6mm × 12.8m | EIA or CCIR | XP1000TP | ICX418, ICX419 |

※Since CCD image sensor has already been discontinued, sales will be limited for maintenance purpose.

※Warranty for the product is one year after delivery.
